Stylus® 105

Versatile 2.8x Zoom A 38 – 105mm Olympus zoom lens with Extra-low Dispersion and aspherical glass elements gives you crisp, vibrant color from edge to edge.

All-Weather Durability Its rugged, splash-proof body lets you take great pictures without keeping an eye on the sky.

Compact, Stylish Design Even with its impressive zoom lens, the Stylus 105 is sleek enough to hide in a pocket and elegant enough for the most sophisticated events.

New Camera Shake Indicator Prompts user to steady camera when shake is detected and automatically selects a faster shutter speed to reduce image blur.

Unrivaled Ease Auto film load, advance and rewind. Auto flash and focus. The Stylus 105 makes it easy to get great pictures while you're having a great time.

Innovative Autofocus An 11-point multi-wide autofocus system recognizes off-center subjects and adjusts accordingly, for superior detail in a variety of compositions.

Advanced Auto Exposure A new AE system features 3 unique optical sensors to help recognize and overcome difficult backlight and indoor light conditions.

Sophisticated Flash System Variable power. Auto color balancing. An intelligent flash reduces red-eye, neutralizes fluorescent lighting, ensures natural skin tones and more.

Functional Features Quartz date imprinting. Multiple exposure options. Optional infrared remote control and more. The Stylus 105 gives you the power to take the pictures you want, the way you want.

► Innovative features combine with a high-quality Olympus zoom lens and make it easy to capture crisp detail and accurate color.
